## Investment objective

The FNB Namibia Unit Trusts Inflation-linked Fund aims to provide a real return of 3.5% p.a. (net of fees) over a rolling three year period. The portfolio will target a low probability of losing capital over a rolling 12 month period.

## Investment strategy

The portfolio will invest a minimum of 35% of the portfolio in Namibian assets with the remaining assets, up to 65%, to be invested in the other Common Monetary Area (CMA) and the maximum allowable offshore.

Collective Investment Schemes in Securities (CIS) are generally medium to long term investments. The value of participatory interests may go down as well as up and past performance is not necessarily a guide to the future. CIS are traded at ruling prices and can engage in borrowing and scrip lending. Figures quoted are from INET and Morningstar for the period ending 30/04/2016 for a (lump sum / monthly investment), using NAV/NAV prices with income distributions reinvested. Portfolios are valued daily at approx. 15h00. Forward pricing is used. Instructions must reach FNB Namibia Unit Trusts Ltd before 14h00 to ensure same-day value.

FNB Namibia Unit Trusts Ltd Limited (Reg. No. 89/485) does not provide any guarantee, either with respect to the capital or the return of this portfolio.
